

# Installation Guide - Trilian (Mac Download)

Last Modified on 09/05/2018 10:14 am BST

**WINDOWS INSTALLATION GUIDE CAN BE FOUND HERE:**

<http://help.timespace.com/home/installation-guide---trilian-windows-download>

## **GETTING STARTED - Mac Download Installation**

Trilian is available as a download as an installation option for registered users through the Spectrasonics [Webstore/Techshop](#). Once you downloaded Trilian via the Download Manager, follow this set of instructions to install it on your Mac system.

*Note: You need over 40GB of free space available on your hard drive in order to continue.*

### **Trilian Installation**

**Step 1:** Open the "Trilian\_Installation" folder.

**Step 2:** Open the Mac folder and double-click "Trilian Installer.pkg" to begin the installation of Trilian.

**Step 3:** The installer might need to quit and reopen to ensure support for older versions of OS X, so just click "OK."

**Step 4:** Follow the steps as you're guided through the installation process.

**Step 5:** The plugin files will then be installed on your Mac's system drive.

**Step 6:** Then at the 'Preparation' step, you'll select where to install the large core library files. By default they will be installed to your system drive or you may choose a secondary drive by selecting the button "Choose Location."

**Step 7:** The large data files will now be copied to your selected drive. Allow for 30-60 minutes to install all of the data.

**Step 8:** After the installation is complete select "Close." Now it's time to open Trilian in your host and authorize it.
