

# Lunacy Audio Cube - Install Guide

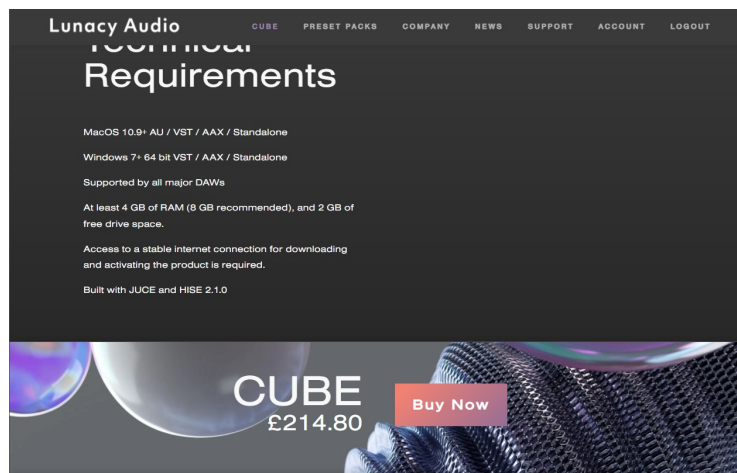

Last Modified on 25/11/2021 12:17 pm GMT

## Installation Guide - Lunacy Audio Cube

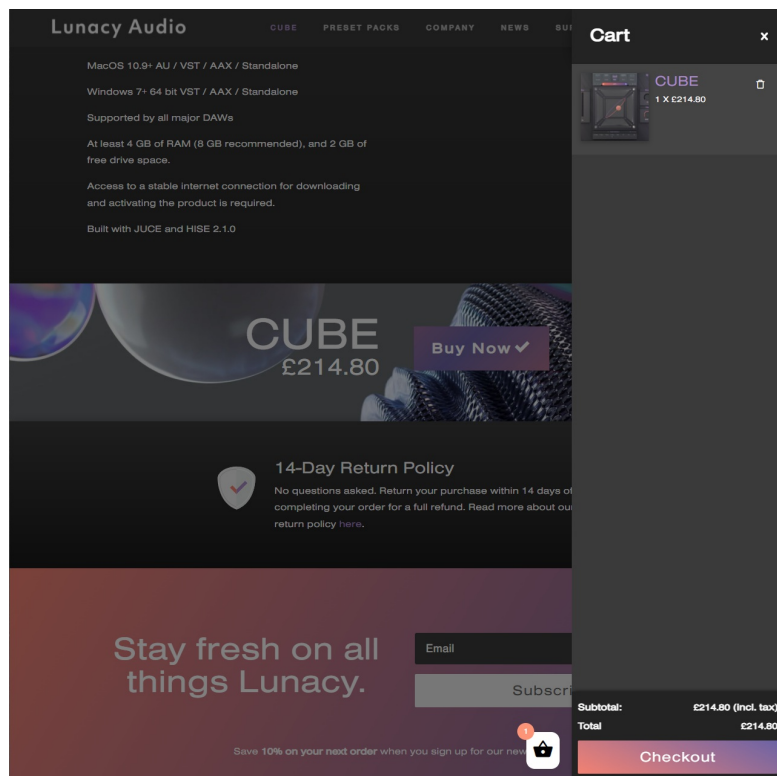

You will be sent a coupon code for your purchase via email, then please follow the steps below to; authorise, download and install your purchase of Lunacy Audio Cube.

### Step One: Creating an account and registering

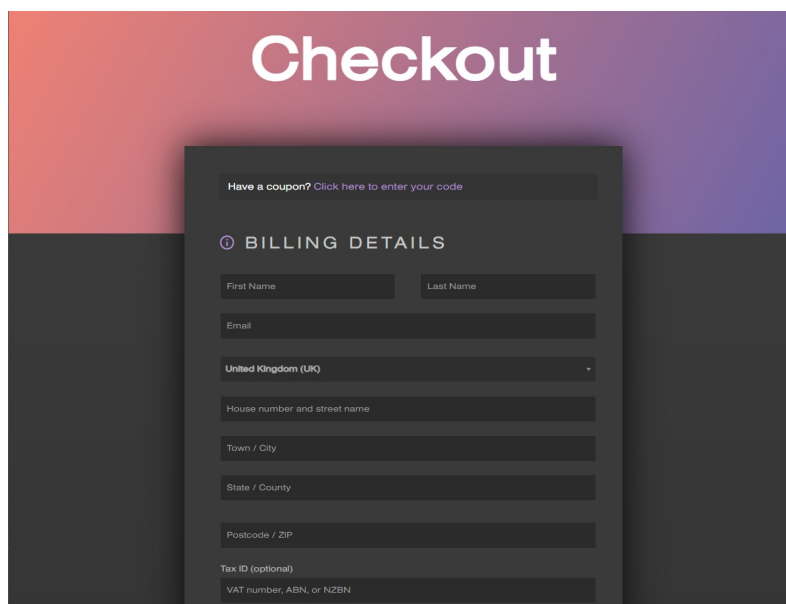

1. Login to your account at <https://lunacy.audio/> or if you do not have an account then please create one here: <https://lunacy.audio/account/>
2. Once logged in go to the 'Cube' tab and scroll to the bottom of the page and locate the 'Buy Now' button.

3. Once you click Buy Now, a popup will appear on the right hand side of the screen which will allow you to go through to the checkout.

4. Go through to the checkout page and choose 'Click here to enter your code'. Enter your coupon code you received by email and the price will automatically be reduced to 0. Fill out all your details and click Place Order at the bottom of the page.

## Step Two: Downloading, installation and activation

1. Run the installer(s), which you will have received by email or can be accessed from the [Downloads](#) section of your account
2. Install both the plugin and the samples. When installing the samples, you can choose a custom location on any hard drive.

3. Use the license key from your order receipt email to activate the plugin on your device. Your license key can also be found on your Account page.

For more information, watch the installation videos on Lunacy Audio's website here:
