Quick Installation Guide - Audiomodern

You will be sent a download email and serial code for your purchase via email, then please follow the steps below to; authorise, download and install your purchase of an Audiomodern product.

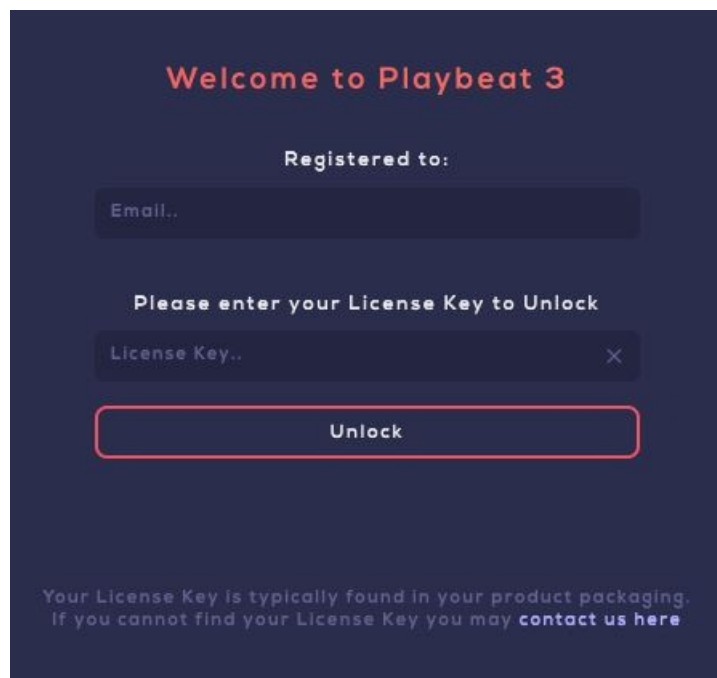

Step One: Downloading

1. Follow the instructions on this Knowledge Base article to download your product using the Conduct Download Manager:

<https://help.timespace.com/home/how-to-download-all-your-products-that-use-conduct-library-manager>

Step Two: Installation, and registering

1. Double-click the installer found inside the main folder of your product and follow the instructions.
2. The first time you open your plugin, a window will pop-up and it will ask you for your License Key and your registration email. You may authorize your plugin with the License key that came along with your purchase.

3. The installation and activation has now been completed, open your new plugin and enjoy!
